

Matol Km®

- ▶ The original formula
- ▶ Helps regulate the body's pH balance
- ▶ Supports digestion
- ▶ Provides a good source of potassium and iodine

Tapping into to nature's secrets. Essential bitter herbs and minerals which are critical for digestive health and the manufacturing of specific vitamins in your body have been genetically removed from conventional diets primarily due to their pungent taste. Matol Km® is a natural phytonutrient-rich mineral formulation, using a proprietary process, from a synergistic combination of minerals and extracts of 13 unique botanicals that fills in these vital dietary gaps. Matol Km is a source of recommended daily minerals, in particular potassium, iron, and iodine. Potassium is one of the minerals vital to human cells' permeability and their inherent ability to absorb nutrients from foods.

Each botanical used in the original Matol Km formula was carefully selected for its pureness and potency. The life-sustaining properties of the botanicals and minerals that make up the formulation have been joined together at a molecular level. This microscopic bonding encourages a synergistic effect where each component propels the other to work at its optimum level.

Matol Km®

Recommended dose: Take one tablespoon (15 ml) in the morning and one at night, on its own or mixed with your choice of cold beverage. Matol Km® is a mineral supplement prepared by a special process, from a combination of minerals and extracts of traditional botanical plants: fruits, flowers, foliage, roots, and barks.

MEDICINAL INGREDIENTS:

Calcium (glycerophosphate)
Iron (ferric glycerophosphate)
Iodine (potassium iodide)
Potassium
(citrate and glycerophosphate)
Proprietary herbal extract blend
Chamomile (flower) 4:1; Sarsaparilla (root) 4:1;
Dandelion (root) 3:1; Horehound (flowering tops) 4:1;
Licorice (root) 3:1; Senega (root) 4:1; Passion flower
(flowering tops) 4:1; Thyme (leaf) 4:1; Gentian (root)
2:1; Saw palmetto (berry) 4:1; Alfalfa (leaf) 4:1;
Angelica (root) 3:1; Celery (seed) 4:1

NON-MEDICINAL INGREDIENTS: Purified water, Caramel colour, Glycerin, Potassium hydroxide, natural and artificial flavours, Methylparaben and Propylparaben as preservatives.

Consult the product label for ingredient information and warnings.

Knowledgeable scientists could devote a life's pursuit to unraveling the mystery locked in this unique, molecular combination and come up empty-handed... I feel privileged to have been inspired to create this formula.

- Karl Jurak
Creator of the original Matol Km formula
