### COURSE DESCRIPTION

- Insight into your chart and learn to interpret the charts of others.
- Groundwork for becoming a professional astrologer.
- This class requires study.

Your natal chart is a revelation of the Divine expressing itself through you as you. The symbols in your chart are a sacred script articulating potential that is unique to you. Most of us are not fully conscious of our magnificence and therefore don't get enough juice out of the gift that our lives are. Astrology is the art and science of revealing and actualizing more of our innate power and potential so that we live lives that zing with authenticity. With each class, participants gain insight into their own natal charts and learn to interpret the charts of others. This class is excellent for anyone who is interested in astrology as a counseling and self-empowerment tool.

### MEET THE PRACTITIONER

**Reverend Deborah Singletary** has over 20 years experience in the field of personal empowerment. An ordained Interfaith Minister, Deborah accepts and honors all religious and spiritual traditions as valid pathways to connecting with a spiritual source.
