

CKLS Herbal Cleanse
(Colon, Kidney, Liver, Spleen)

Product Description

NEW MIRACLE HERBS TO FLUSH OUT BODY POISONS THAT MAKE YOU FAT, TIRED AND SLUGGISH! It is said that all sickness begins in the colon and then spreads to other parts of the body. The purpose of the colon is to expel the toxins and wastes that it collects from other organs in the body. When waste matter sits in our colon, it allows proteins to putrefy, fats become rancid, and carbohydrates ferment. Even with one bowel movement per day, you will still have at least two meals worth of waste matter putrefying in your colon at all times. If the colon is not operating efficiently and not kept cleansed of encrusted toxins and waste, then it will begin recycling waste back into the body, which will absorb into the bloodstream and accumulate in our organs. The longer your body is exposed to these conditions, the more risk of absorbing these dangerous intestinal toxins, causing dis-ease. The herbs in New Body's C.K.L.S. formula have successfully been used to help eliminate toxins from the colon, kidneys, liver, and spleen. One of the best things about this cleanse, unlike any others you may have tried, CKLS does not gripe the stomach. Millions of people have cleansed the New Body way.

The primary ability of CKLS is the removal of bodily wastes and toxic bacteria, which frequently lead to disease. CKLS accomplishes these goals without unbalancing the body's natural processes, causing drug interactions or side effects. The makers claim that their product is grown in pesticide free soil and contains the whole plant and all its natural ingredients and thus ensure us it has not been degraded by an industrial manufacturing process. CKLS is available in an easy to swallow capsule.

CKLS assists 4 vital areas of the body: the colon, kidneys, liver and spleen. By cleansing and balancing these organs, it can provide regular bowel movements and increase the overall health of those areas. The fact that it is all-natural, plant based, and free of pesticides, makes it a pure approach to keeping vital body organs healthy and disease free.

100 Capsules: \$20 + \$5 shipping & Handling = \$25.00

Ingredients: CKLS is a 100% organic blend of whole plants that are naturally grown. Each one targets a specific condition or area of the body. They include: Aloe Vera Resin for irritable bowel syndrome constipation and colitis. Cascara Sagrada is a liver and bowel tonic for the liver and spleen and it aids in Irritable Bowel Syndrome. Chamomile is a liver tonic, anti bacterial and anti-inflammatory that can relax the nervous system. Mullein is said to be a natural antihistamine, anti cancer, antioxidant, and antiviral fungicide against colonic bacteria. Uva Ursi is useful in digestion and fights uric acid buildup. Fenugreek supports mucus membranes while Dandelion purifies the blood and stimulates the liver. Eucalyptus is a natural immune stimulant, antibiotic, antiseptic and antibacterial that fights bacillus coli in the colon.
